

SPRING AXLE ORDER FORM

AXLE CAPACITY *: _____ **HUB FACE:** _____

*Always reference UFP overhang chart or contact UFP for actual axle capacity.

DROP: _____ (IF **BOTTOM SPRING MOUNT**: Measured from bottom of spring pad to centerline of spindle, with spring pads welded to bottom of beam. Drops of 2 1/2", 3 1/2", 4 1/2" and 5 1/2" are available. Note: In straight axles, the spindle centerline and axle main beam centerline are almost identical. IF **TOP SPRING MOUNT**, Measure from the bottom of the axle beam to the centerline of spindle, then add 3/8" to that dimension to get the total drop.)
